AORT80-X Series

OVERLANDER HD

SPRINTER WHEELS BY AGILE OFFROAD

The Overlander HD series, your ultimate heavy-duty wheels for the toughest terrains. Built for superior strength and durability, these wheels ensure your vehicle can handle any challenge with confidence. Available in three bold finishes to suit any style.

KEY FEATURES

Cast-Flow-Formed Construction

Lightweight yet exceptionally strong, ensuring long-lasting durability and performance.

Weight: 30.5lbs

Optimized for performance, maintaining strength without adding unnecessary weight.

Max Load Rated @ 4215 lbs.

Capable of handling substantial loads, ideal for both off-road escapades and everyday use. Selected to match the maximum tire size/load available for Sprinter vehicle.

Y Spoke Design and Enhanced Lip Ring

Increases strength for rugged performance.

17x8 +32mm Offset

Perfectly balanced for stability and enhanced control in all driving conditions. Designed specifically for Agile RIP kit without the need for wheel spacers. (4WD Applications)

Rim Contour

Elevated bead safety hump and gnarled bead seat assists in holding the tire in place during air down scenarios.

Dual Valves for Rapid Deflate & Inflate

Facilitates quick tire pressure adjustments, essential for adapting to varying terrains, and accepts original equipment tire pressure monitoring sensors.

Flow Formed Construction

Advanced process of heating, spinning, and stretching the rim width for greater strength and lighter weight, resulting in shorter braking, faster acceleration, and more nimble handling.

No Wheel Spacers Required on 4WD RIP

Ensures a seamless fitment without the need for additional modifications.

Multiple Finishes

Available in matte black, grey with black ring, and bronze with black ring for greater personalization.

CAST-FLOW-FORMED CONSTRUCTION.**

OVERLANDER HD SPRINTER WHEELS BY AGILE OFFROAD

BENEFITS

- 01 On and Off-Road Capability** Engineered to handle rugged terrains with a refined design that complements any vehicle.
- 02 Superior Fitment** Specifically designed to fit Mercedes Sprinter 2500 (2WD & 4x4) models, from second-generation (NCV3) 2007-2018 to third generation (VS30) 2019+, including the 2023 Sprinter.
- 03 Aesthetic Versatility** Available in three sophisticated finishes to suit any style preference.
- 04 Ease of Air Pressure Management** The dual-valve stem system simplifies tire pressure management, ensuring optimal performance with minimal effort.
- 05 Enhanced Safety and Performance** The design supports big brake upgrades, boosting overall vehicle safety and performance.
- 06 Increased Load Capacity** Enhances driver confidence to take you farther off the paved surface.

SKU

AO-W1U-X Series Overlander XT Sprinter Wheels

TECHNICAL SPECIFICATIONS

Body	2.0" impact extruded, and CNC machined
Construction	Cast-Flow-Formed
Max Load	4215 lbs.
Dimensions	17x8 +32mm Offset
Valves	Dual for rapid deflate & inflate
Weight	30.5 lbs.
Compatibility	Mercedes Sprinter 2500 (2WD & 4x4), Second Generation (NCV3) 2007 - 2018, Third Generation (VS30) 2019+, 2023 Sprinter
Finishes	Matte Black, Matte Grey w/ Matte Black Lip, Matte Bronze w/ Matte Black Lip

PARTS INCLUDED
